Better Public Options

Build senior housing on the allotted 3 acres. Stop the 110 millionaire homes from being built. Create a showcase project on the remaining 14 acres where every year thousands of seniors and their family join together to preserve the Valley's heritage.

Edible Botanical Garden

Plant an edible botanical garden where seniors and children garden together. Use showcase techniques for a heritage theme. Grow early Mission plants, alternative medicine plant collections, educational, organic farm and gardens.

Intergenerational Gardening

Make a difference for seniors and school children. Grow healthy food for seniors, senior centers, and schools. Teach them about healthy food and using this land to model backyard gardens. Create a healthy future.

Preserve History

Save historical buildings and an orchard as a living museum. Use existing greenhouses to grow flowers to sell at green retail stores and a farmers market.

Education Center

Children learn of agricultural research at BAREC that created our leading fruit industry and untold wealth. Learn hands-on nutrition and delicious diets from the fruits of the rich BAREC soil.

Keep Public Land Public

This last 17 agricultural acres of land links Silicon Valley to its past by keeping a piece of its heart.

State Profits on Public Land

Stop the State from selling public land it says it has other uses for.

By law the State declares land surplus when it has no use for it. Yet if the State says it has other uses for this land, it can not sell the public land to the developer.

Stop Public Land Grabs

Stop the State from disposing of public land to discourage future public land grabs.

Vote NO on A & B February 5th 2008

Keep Public Land PUBLIC!

Feb 5th Santa Clara voters can save the last 17 acres of agricultural land from the Developer's bulldozer. Let Santa Clara citizens decide.

Land Unfairly Divided

- 60% for 110 Wealthy Homes
- 18% for 162 Senior Units
- 16% for a Private Lawn
- 6% for a 1 acre Public Park

Ownership

The State says it owns the property and the City controls the zoning. Your vote determines the future of the land.

Proper Cleanup

Over 85 years BAREC did fertilizers and pesticides research. Soil needs special clean up, for its extra levels of research chemicals to be restored to safe levels.

Bioremediation

A safe State approved soil cleanup is called **bioremediation**, which will return the soil to its pristine state.

Clean Soil, Do Not Remove It

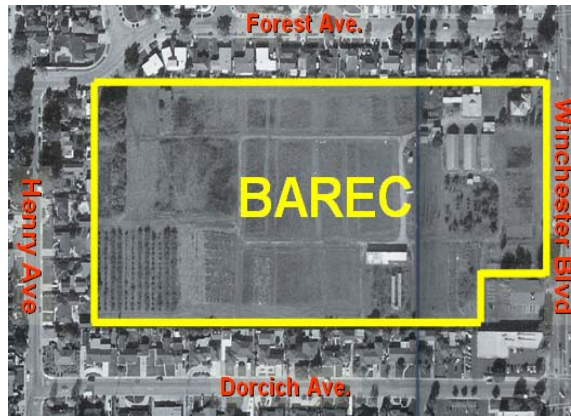

The State will remove some soil and average the toxins left in the soil. Let them know they must properly clean the soil, no matter what they build on it. Removing soil will transfer the toxins.

Keep the Traffic Flowing

Do not be fooled! It is not the senior homes; it is the 110 private homes that will cause the extra traffic. Traffic on Winchester and Stevens Creek will get worse. There is no limiting how many cars the 110 private homes will have.

No Pedestrian Safety

Senior pedestrians are endangered crossing a busy intersection and moving traffic in several parking lots.

90 North Winchester Blvd, Santa Clara
Across from Westfield Shopping Center (Valley Fair)

Traffic Congestion Increases

The 2 narrow road exits on Winchester will back up traffic adding congestion. There is no approved traffic solution for the traffic generated from 162 senior housing units and 110 luxury homes with unlimited vehicles.

SaveBAREC No On Measures A and B

Vote NO on A & B
February 5th 2008

Vote NO on A & B to:

- Overturn the Zoning Resolution
- Overturn the new General Plan
- Return the original General Plan
- Purify Contaminated Soil
- Restore the soil safely
- Use safe certified *Bioremediation!*
- Reduce Carbon Footprint
- Increase Health Awareness

Support Your Community

- Keep Senior Housing
- Sustainable Food Systems
- Preserve California History
- Support School Gardens
- Teach Backyard Farming
- Save the LAST agricultural land
- STOP Traffic Congestion

The Choice is Yours

We support Santa Clara citizens' right to choose how to use this treasured land.

The Citizens Vote Will Decide!

We advocate voting NO on A & B to save the last 17 acres of agricultural land so seniors and the community win!
